PROFILE

Frontend developer who ships complete products, from Figma designs to production web and mobile apps. I co-founded PetiVeto, a veterinary platform for Morocco, and built its entire frontend: a Next.js clinic dashboard and a React Native mobile app. Five live web projects in Next.js, TypeScript and FastAPI. Now a Master's student in Nanjing, available for part-time or freelance work.

EXPERIENCE

PetiVeto — **Apr 2026 – Present**
Co-Founder · Frontend Developer & Product Designer — Morocco · Remote

- Built the entire frontend of a two-sided veterinary platform: a Next.js clinic dashboard for vets and a React Native (Expo) mobile app for pet owners (pre-launch).
- Implemented the core flows across web and mobile: patient records, appointments and owner communication, connected to the platform's FastAPI backend.
- Designed the UI in Figma first, then turned it into the components and screens of both apps.
- Shaped the feature set from interviews with 4 Moroccan veterinarians about their clinic workflows.

Innovatech Consulting — **Jul 2025 – Sep 2025**
Front-end Developer & UI/UX Designer Intern — Casablanca, Morocco

- Built the complete Angular frontend of DigiCard, a digital business card platform with QR sharing and an admin dashboard, focused on clean UI and fast load times.
- Reworked UI components based on feedback from users and the team, simplifying navigation.
- Took on Spring Boot backend tasks when the team needed support, beyond the original scope.

PROJECTS · built independently, all live

Passiflora · Restaurant ordering platform CONCEPT — passiflora-menu.vercel.app
Full-stack French-language site: menu, online ordering, table reservations and order tracking. Next.js, React 19, FastAPI, MongoDB.

Pulse AI News · Real-time news aggregator — pulseainews.vercel.app
Pulls live stories from BBC, NPR, The Guardian, arXiv and more, filtered by category and refreshed automatically. Next.js, React 19, FastAPI.

Luckin Coffee · Bilingual site — luckincoffee.vercel.app
CONCEPT
Responsive English/Chinese site with language switching, statically exported. Next.js 16, TypeScript.

Seiko Watches · Product showcase — seiko-watches.vercel.app
CONCEPT
Scroll-driven product page with cinematic animations, optimized for load performance. Next.js, TypeScript.

SurFoodSave · Mobile — React Native · Expo · Firebase

EDUCATION

Nanjing University of Science and Technology
Master's, Computer Science
Sep 2026 – Jun 2029 (expected)

Hangzhou Dianzi University
Bachelor, Software Engineering
GPA 4.44 / 5 · 2022 – 2026

Donghua University, Shanghai
Chinese Language Program
2019 – 2021 · Outstanding Student, 3 years running

LANGUAGES & MARKUP

TypeScript · JavaScript · HTML/CSS · Python · SQL

FRAMEWORKS

React · Next.js · React Native (Expo) · Angular

BACKEND & DATA

FastAPI · Node.js · Firebase · MongoDB · Spring Boot

TOOLS

Git · Docker · Vercel · Figma

SPOKEN LANGUAGES

Arabic · Native
French · Bilingual
English · Fluent
Chinese · Intermediate (HSK 4)

COMMUNITY

GDG Hangzhou — Volunteer for 1+ year at Google Developer Group tech events.

International Student Union, HDU — Volunteer & Learning Affairs Head.
